Delegated or Committee Planning Application Report and Report of Handling as required by Schedule 2 of the Town and Country Planning (Development Management Procedure) (Scotland) Regulations 2013 relative to applications for Planning Permission or Planning Permission in Principle

Reference No: 23/00144/AMSC

Planning Hierarchy: Local

Applicant: CALA Management Limited

Proposal: Approval of Matters Specified in Conditions 2,3,6,7,8,9,11,12,13,15,16 and 17 of consent 18/01444/PP (PPA-130-2071). Erection of residential development with associated access, infrastructure, open space, landscaping and miscellaneous works. (Proposed removal/alterations to conditions 4, 5 & 7 of REF 15/01794/PPP)

Site Address: Land North Of Cardross Primary School, Barrs Road, Cardross

SUPPLEMENTARY REPORT NO. 1

1.0 INTRODUCTION

Members will recall that at the last meeting of PPSL on 20th March 2024 Members were satisfied with all AMSC submissions made, with the exception of those related to conditions 11 and 12 which relate to drainage and flooding matters.

Additional clarification on technical matters was sought by Members at this meeting relating to the drainage and the flooding submissions. Planning Officers were not qualified to provide this technical advice and therefore a hearing to examine these specific matters in more detail was determined by Members to be required. For ease of reference conditions 11 and 12, are set out below;

Condition 11

“Pursuant to Condition 1 – no development shall commence until the following details have been submitted to and approved in writing by the Planning Authority:

- i) Details of the proposed cut off ditch (or similar) to be located along the northern border of the site, along with calculations demonstrating that this proposed mitigation measure will not exacerbate flooding elsewhere;*
- ii) The existing flow pathway in the vicinity of the sewer line shall be maintained;*
- iii) A detailed drainage assessment and layout;*
- iv) Method Statement detailing the surface water containment during construction.”*

Reason: In order to ensure appropriate mitigation for flood risk

Condition 12

“Pursuant to Condition 1 – full details of the proposed SUDs shall be submitted to and approved in writing by the Planning Authority. Thereafter the development shall commence in accordance with these details. These details shall include:

- i) Full details of the proposed design and appearance of the SUDs facility to be designed in accordance with CIRIA C753;*
- ii) Detailed design calculations for this facility;*
- iii) Details of the proposed drainage of the SUDs facility;*
- iv) Details of the proposed maintenance regime and maintenance responsibilities for the SUDs facility;*
- v) Soil information to be provided if infiltration SUDs are proposed.”*

Reason: To ensure the provision of an adequate surface water drainage system and to prevent flooding.

2.0 Additional Submissions Since last PPSL Meeting

Members are requested to note that since the meeting on 20th March 2024 additional submissions have been made as follows:

23.05.24 – Submission by Dougall Baillie Associates (Dated 07.05.24) on behalf of Cala Homes related to Mr McNally-Gatensby objection submission dated 19.3.24.

10.06.24 – Drainage Strategy Report (Issue 5) submitted by applicant. Updated to reflect layout changes to house plots fronting Barrs Road. The applicants clarify by submission that;

‘The report has been updated to reflect the current site layout and subsequent changes to the drainage layout since issue 4 of the report. The changes to the site layout were in relation to the plots accessed from Barrs Road. Whilst this resulted in an amendment to the drainage layout, this had no impact on the proposed drainage principles or strategy applied in dealing with surface water flows at the development site and the supporting drainage calculations confirm this.’

13.6.24 – Representation in support of proposal by Cllr Penfold due to housing emergency. Cllr Penfold also submitted a request to be heard.

13.6.24 - E- mail from Mr McNally-Gatensby expressing concerns over prejudice suffered due to late publication of information addressing his previous objections dated 19.3.24. Officers have responded by e-mail dated 13.6.24 to indicate that they consider that the hearing should proceed. This response has been separately copied to members and placed on public access.

13.6.24 - Response to Mr McNally- Gatensby objections of 19.04.24 by applicants agent. This provided clarification on date of submission of their further representations to the council (22.5.24) and remit of their letter. They consider hearing should proceed. This has also been placed on public access.

Having regard to the above submissions, officers are of the opinion that any drainage and flooding matters of a technical nature associated with these submissions will be able to be put

by Members at the hearing to the appropriate parties and experts. Officers are content that these submissions raise no new issues.

None of the above submissions alters the Officer recommendation to approve the AMSC application as set out in the main officer report.

3.0 RECOMMENDATION

It is recommended that the AMSC permission be approved as per Officer recommendation within the main report, with the minor correction that the referenced drainage strategy within the approved supporting documents is amended to the Issue 5 drainage strategy submission dated 10.6.24. The proposed revision to condition 01 is as set out at below with the minor amendment set out in red.

AMSC - Approved Details

Revised Condition 01

The development shall be implemented in accordance with the details specified on the application form dated 30.01.23, supporting information and, the approved drawings listed below unless the prior written approval of the Planning Authority is obtained for an amendment to the approved details under Section 64 of the Town and Country Planning (Scotland) Act 1997.
