Dear Fiona,

I am writing to you about the proposed houses to be built at KELLAN, Glenmore RD, Pulpit Hill, Oban, by a MR Derek MacLean,

The houses to be built would look straight into my living window, It would infringe on my privacy.

The plot of land is not big enough for detached houses.

There is not enough room for garden for the premises, and they would be crammed into the space.

There would be a big upheaval if they were built, There would be a constant noise plus the mess and dirt that would be created.

The houses round about are all older and the houses would look completely out of place. I hope you will consider my letter and not allow these dwellings to be built. Could you let me know what your decision is

Yours faithfully
