<p>Activity Summary in Period (please state period you are reporting on)</p> <p>April – June 2011</p>	<p>There is currently an ongoing review into health improvement processes and structures throughout Argyll and Bute, being led by HIPAG. It is expected that the final report of this review will be available in October and will identify options to improve delivery.</p> <p>HIPAG administrates the Health Improvement Fund (HIF) and till end June 2011, £8313.76 had been awarded to 6 initiatives throughout the area, from a total fund of £71,000.</p> <p>A new application and scoring procedure has been implemented since April 2011.</p>
<p>Key Challenges & Actions to Address</p>	<p>The anticipated outcomes related to HIPAG deliverables are long term and can be difficult to measure as they are often over the life course. It is envisaged that the review will propose mechanisms to allow short term measures to be identified.</p>

	<p>Currently the Community Plan does not include a full range of actions and measures to accurately determine the impacts on health and wellbeing, for example there are no measures for mental health, healthy weight, addictions, life expectancy etc. It would be advisable to align the Community Plan and Single Outcome Agreement to the Argyll and Bute CHP Health and Wellbeing Profile (Scottish Public Health Observatory 2010) See:</p> <p>http://nhsabctws100.argyll.scot.nhs.uk/cgi-bin/patience.cgi?id=56c046d4-359f-4df7-a56e-4f273741896e</p>
