

Reduce, Reuse, Recycle.

Stay legal – what you must recycle.

Waste (Scotland) Regulation Act 2014 require all organisations recycle the following materials:

Metal

Cans, tins and aerosols.

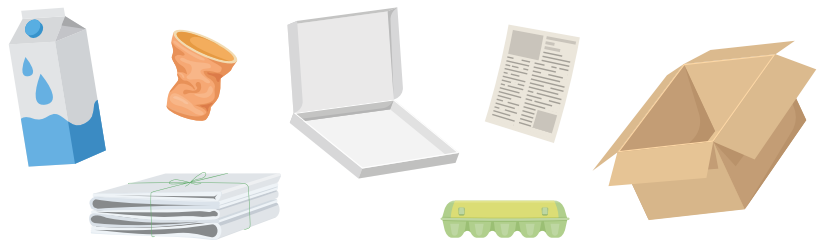

Plastic

Drinks bottles and rinsed, empty food containers (polystyrene is NOT recyclable).

Paper & cardboard

Newspaper, magazines and envelopes.

Look for the recycle logo on packaging.

DID YOU KNOW – recycled goods are sorted manually when they reach the recycling plant? It's important that only clean and dry items go into your blue recycle bin. Never put sharp objects into recycling. Place can lids inside cans, help keep our sorters safe.
