PUTTING THE CUSTOMER FIRST

As with all Scottish Local Authority Building Standards verifiers, Argyll and Bute Council adopts nationally set and locally applied standards of service.

THE NATIONAL CHARTER

Purpose of a National Customer Charter:

A National Customer Charter for Building Standards Verification provides information about the minimum standards of service that all local authority verifiers should meet. This gives customers the reassurance that a consistent, high quality service will be delivered no matter which local authority provides the service.

Our Aims:

- To grant building warrants and accept completion certificates;
- To secure the health, safety, welfare and convenience of persons in and about buildings and others who may be affected by buildings or matters connected with buildings;
- Furthering the conservation of fuel and power, and;
- Furthering the achievement of sustainable development.

Our vision/values:

To provide a professional and informative service to all our customers.

Our Commitments:

Nationally all local authority verifiers will:

- Seek to reduce the average time it takes for customers to obtain a Building Warrant.
- Ensure continuous improvement around the quality of our assessments to ensure compliance.
- Meet and seek to exceed customer expectations.
- Carry out local customer satisfaction surveys.
- Address feedback obtained through a National Customer Satisfaction Survey to improve the customer experience.

- Provide accurate financial data that is evidence-based.
- Engage with our peers and stakeholders through a National Forum that will identify and embed service improvements at a national level.
- Develop and adhere to a Balanced Scorecard approach outlining our objectives and targets.
- Fully adhere to the commitments outlined in this Charter (including information regarding the escape route process for dissatisfied customers in relation to building warrant processing timescales.
- Provide a consistent format for our continuous improvement plans.

Information- National information on verification performance can be found at the [Scottish Government website](#).

Performance Outcome:

As part of the nationally agreed increased commitment to meeting customers' expectations we aim to provide you with a technical response, or issue the Building Warrant, as applicable, within 20 working days from receipt of your valid application. In some complex cases, applications for a Building Warrant will result in a *customer agreement* where an extended response period will be specifically agreed.

If your application is not through a *customer agreement* and should you not have received a technical response, or a Building Warrant, as applicable, within a trigger of 35 working days from receipt of your valid application then you have the right to request resolution to the matter. This may be done by contacting your [local area office](#) and you may also contact the Building Standards Division at buildingstandards@scotland.gsi.gov.uk
