

Dialogue 29

Reporter

Arising from the information presented so far, and in the light of some of the objections, the Reporter considers it important for him to have further basic information not so far provided. He therefore asks the Council for the following information as soon as possible:

- *Number of resident households in Luss village core.*
- *Maximum number of on-street parking permits valid at any one time issued under the TTRO to resident households in Luss village core.*
- *Number of businesses in Luss village core.*
- *Maximum number of on-street parking permits valid at any one time issued under the TTRO to businesses in Luss village core.*
- *Number of resident households in Luss parish.*
- *Number of businesses in Luss parish.*

The Reporter anticipates that this information will provide a useful factual basis for discussion at the hearing on a variety of matters, including parking demand and potential income from the proposed permit scheme.

Council

- *Number of resident households in Luss village core. 67*
- *Maximum number of on-street parking permits valid at any one time issued under the TTRO to resident households in Luss village core. 89*
- *Number of businesses in Luss village core. 19*
- *Maximum number of on-street parking permits valid at any one time issued under the TTRO to businesses in Luss village core. 3*
- *Number of resident households in Luss parish. 187*
- *Number of businesses in Luss parish. 154*

With regards to the number of businesses listed, some of the addresses have residential and several corporate addresses on the council systems, i.e. farm and chalet 1-5 listed as commercial with the farm having a residential listing also. Therefore the figures reflect that there are a number of properties with multiple corporate and residential listings.
