Argyll & Bute Local Development Plan Examination
Addendum to HRA of Argyll and Bute Local Development Plan (2015)

The Modifications to the proposed LDP as set out above will not in most cases require additional Habitats Regulation Assessment for the reason set out. However, there are a number of modifications where additional screening is required as follows;

ISSUE	MODIFICATION	NEAREST EUROPEAN SITE AFFECTED	HRA REQUIRED/MITIGATION
ISS119 Housing Land: Ardoch (see map below)	Extend the settlement boundary of Ardoch on the proposals map.	Inner Clyde SPA	Mitigation of impacts on the adjacent SPA from development within this extension to the settlement can be achieved by ensuring that any development proposals are subject to the following: “For planning permission to be granted, development must ensure that there would be no adverse effect on the Inner Clyde Special Protection Area/Ramsar site, either alone or in combination with other plans or projects through factors such as construction and operational disturbance (including noise, vibration, timing of construction works relative to the bird wintering period, and timing of construction works relative to other projects that affect the SPA and increased recreational disturbance”.
ISS120 Area for Action: Geilston House, Cardross (see map below)	New Area For Action	Inner Clyde SPA	The proposed AFA is too remote from the SPA and would therefore have no significant effect on the qualifying interests of the Inner Clyde SPA, and as such can be screened out.
ISS304 Development Land: Mull (see map below)	New Potential Development Area (PDA) at Fishnish, Mull.	Glas Eileanan SPA	The proposed PDA is too remote from the SPA (4 Km distant) and therefore development within the PDA would have no significant effect on the qualifying interests of the Glas Eileanan SPA, and as such can be screened out.
ISS313 Development Land: North Connel (see map below)	New Potential Development Area (PDA) for airport related business/tourism at Oban airport.	Firth of Lorne Marine SAC	The proposed PDA is too remote from the SAC and therefore development within the PDA could have no significant impact on the qualifying interests of the Firth of Lorne Marine SAC, and as such can be screened out.
